**STATEMENT OF JUSTIFICATION  
DEMOLITION OF BUILDINGS AT 21<sup>ST</sup> AND “O” STREETS**

This statement is written in support of demolition applications filed by Chapman Group L.C. and Martinsburg Plaza L.C. (collectively the “Applicant”), owners of several buildings located at the intersection of 21<sup>st</sup> Street and “O” Streets. See Exhibit A, attached hereto, for a full list of properties, subject to these applications

These demolition permits are filed pursuant to applicable provisions of the Purcellville Zoning Ordinance and the Code of Virginia.

As set forth in Section H, Page 31 of the Design Guidelines, the Board of Architectural Review is charged to retain the historic fabric of the Town while balancing *“the needs of the property owners to make contemporary use of their property”*.

The Applicant acquired the properties over 5 years ago for exactly the stated reason – to make contemporary use of the Property. From the outset it has been the Applicant’s stated objective in numerous public hearings and workshops to replace the existing buildings with a compact downtown center. In accordance with Guideline 2F (page 32 of the Design Guidelines) the Applicant believes the removal of the buildings is consistent with the goals of the Town Comprehensive Plan.

*“The extent to which retention or, in the converse, removal or relocation of the building or structure or group of structures supports goals, objectives or policies of the Town Comprehensive Plan.”*

The Applicant has proposed a project, Vineyard Square that is in conformance with the Town Comprehensive Plan, the Downtown Master Plan prepared by Hill Studio and applicable sections of the Town Zoning Ordinance, revisions which were adopted in 2008 addressing the size and scale of the development of the Property (See Sections 9.8.3 and 9.8.4 of the C-4 district regulations).

The proposed re-development of the Property will create housing and retail opportunities in the central area of the downtown district, an area that has limited housing opportunities and few high quality retail spaces.

The impetus to this project began with the downtown charette conducted by Hill Studio as a consultant to the Town of Purcellville. The charette and the result of the charette – the Downtown Master Plan – recognized the need to construct new buildings in the downtown district to increase the diversity of land uses and economic opportunities.

The buildings proposed for demolition are beyond their economic life, having been built in an amateur fashion, and cannot feasibly be preserved as part of the redevelopment. In general the buildings do not comply with Federal law in regards to handicap accessibility and some have been compromised structurally due to fire on the premises. The building identified as 130 North 21<sup>st</sup> Street was altered to include a vertical vinyl barn style door. The building which is identified as 140-148 21<sup>st</sup> Street was renovated in 1978 with an inappropriate mansard style roof overhang. Several of the buildings proposed for demolition are sheds or “storage” buildings. According to the reports filed with the Department of Historic Resources four of the structures listed in Exhibit A are sheds or storage buildings. In accordance with Section H.1.(d) of the Design Guidelines at least two of these buildings do not require demolition permits. However the Applicant has been directed by the Zoning Administrator to include all buildings on site in the request for demolition permits.

There is no alternative to demolition. The re-development of the Property includes a parking garage underneath all of the buildings fronting 21<sup>st</sup> Street. The buildings on the Property, including the buildings on 21<sup>st</sup> Street, are not capable of being relocated. The buildings along 21<sup>st</sup> Street are of masonry construction and it is not feasible to re-locate such structures. The metal sheds have limited historical and no economic value.

The Applicant is designing a mixed-use pedestrian oriented center and the existing buildings fail to comply with current building codes, are not structurally sound for any development, and do not meet any criteria for the contemporary use of the Property.

Significance Statement: March 2006:  
Though altered by the addition of the mansard roof, this building retains its original configuration and, therefore, continues to convey its historic use as a commercial construction. This building exemplifies the influence of the Colonial Revival style in its multi-paned windows and door configurations. This structure contributes to the Purcellville Historic District.
