Guidelines for the Application of Meals (Food and Beverage) Tax

- The Town of Purcellville levies a **five percent (5%) meals tax** on the purchase of food and beverage (effective July 1, 2012).
- These guidelines are designed to provide guidance to restaurants and other businesses where meals and beverages are sold to the public for immediate consumption **on or off premises**.
Examples of places in which meals are sold include, but are not limited to: cafeterias, coffee shops, taverns, restaurants, dining accommodations, private and public clubs, convenience and grocery stores, caterers and delicatessens.
- The policies and procedures for the collection of meals tax are dictated by Chapter 74, Article III, "Meals Tax" of the Town Code of Purcellville, Virginia. The guidelines below help outline some distinctions for taxable items but does not cover the full list of exempt items.
 - Sellers should reference the town code for all applicable exemptions from meals tax collection. (ex: food stamp/WIC purchases; vending machines, bulk food sales, day care/schools food sold to students and employees, etc.)
- Please note that the five percent (5%) tax on meals and beverages is levied **in addition** to the Virginia State Sales Tax.
- If you cease to operate or otherwise dispose of your business the tax collected shall become immediately reportable, due and payable.
- Meals tax collected by the seller is deemed to be held in trust by the seller until remitted to the town and failure to file a return or pay may face criminal charges.

If you have any questions regarding these guidelines or the Town meals tax, please contact the Finance Department at 540-338-7093.

Tips are not taxable **unless**:

1. The seller keeps part or all of a tip.
2. The seller adds a specific amount or percentage to the gross price of the food and beverage requires the customer to pay this amount.

Example: Some restaurants advertise on their menus that a 15% gratuity is automatically added for parties of 8 or more. This percentage is **TAXABLE**.

Coupons

- a. Two for one meal / food purchases or coupons that offer a percentage or a certain dollar amount off a meal are taxed based on the amount actually paid by the customer.
- b. "Entertainer coupons" and store coupons do not possess a currency exchange value. Therefore, tax is based on the cash price actually paid by the customer.
- c. Manufacturer coupons do possess a redemption factor and the establishment is compensated for coupon acceptance. The meals tax is applied to the whole, standard, non-discounted price that would have been paid for the two items.

THE TAX APPLIES TO:

On-Premise:

- *All hot or cold foods and beverages inclusive of factory-sealed beverages, unless specifically exempt.*

Off-Premise:

- All sandwiches, hot or cold.
- All hot foods.
- All non-factory sealed beverages, fountain drinks, hot or cold coffee or chocolate, milkshakes, floats, Slurpees, Ices, or similar frozen ice drinks regardless of whether it has a lid.
- Ice cream or frozen yogurt in a cone, dish or single serving sized open container sold by an ice cream type store or food establishment.
- Frozen or chilled factory packaged, single serving sandwiches, burritos, and the like, marketed and sold in a food establishment that provides a heating device to render the item palatable.
- Salads, commonly referred to as Chef, Cobb, or other similar garden style salads, that are packaged or prepared in a manner similar to those provided in a restaurant or purchased in a grocery delicatessen or convenience store and packaged in containers affixed with lids or tops ready for immediate consumption.

THE TAX DOES NOT APPLY TO:

- A frozen TV dinner.
- Garden type salads in factory sealed packages that are considered to be for additional home preparation. These salads are usually sold in the produce section of grocery stores in factory sealed, stay-crisp style bags, and usually require additional preparation before consumption.
- Salads, such as potato, macaroni, chicken salad or coleslaw, sold by the pound or fraction thereof and not for immediate consumption on premises. These salads are commonly sold in the grocery delicatessens in containers with lids.
- Frozen seafood, sold by the pound in grocery stores that provide employee operated steam cooking at no additional charge and when the item is not to be consumed on premise.
- Ice cream or frozen yogurt in factory packaged or bulk packed containers sold at a store or by a street or ice cream truck vendor.
- Alcoholic and non-alcoholic beverages, in factory sealed containers, sold for off-premise consumption.

Examples of Food and Beverage Taxable/Nontaxable Items For Specific Businesses

Note: The burden shall be upon the seller of the food and beverage to maintain records detailing taxable receipts and nontaxable receipts.
